

# The Answer is Pumping.

**The V-RAM  
By-Products Pump**

## Our affordable By-Products Pump handles what augers can't.

- Piping eliminates augers, messy conveyor belts, the cost of cleanup, and downtime.
- Piping eliminates the odor caused by decaying offal on the augers and other equipment due to overflows.
- It can take multiple augers to do the job of what **one** V-RAM Pump can do.
- The V-RAM By-Products Pump can be placed to feed multiple cookers.

With over 30 years of experience, V-RAM's commitment to quality and service is undeniable. Our pumps are built with service and dependability in mind.

V-RAM has revised the pump to meet your needs, eliminating unnecessary features while maintaining V-RAM's high standard of quality and performance. The result: **A lower cost pump without quality compromise.**

V-RAM has a proven product, a competitive price and we stand by our products. **Specify the V-RAM By-Products System in your current and future applications today!!**
